

## MANY WAYS TO GIVE

### **Include Hillcrest in your Will or Trust**

Including Hillcrest in your will or trust is a simple way to leave a lasting legacy that will benefit generations to come.

### **Charitable Gift Annuity/Remainder Trust**

Establishing a Charitable Gift Annuity or a Charitable Remainder Trust allows you to make a significant donation while continuing to receive income for the rest of your life.

### **Name Hillcrest as a Beneficiary**

Naming Hillcrest as a beneficiary in your retirement plan or in your life insurance policy is a great way to make a significant and lasting impact, while not affecting your finances during your lifetime.

### **Donate Real Estate**

Donating real property to Hillcrest is one of the most significant charitable gifts you can make. Hillcrest can even help you calculate the potential tax advantages and financial impact of donating property.

### **Naming Opportunities**

Named gifts have powerful impact. They not only honor the donors, but also encourage others to follow their generous example. A variety of naming opportunities are offered as part of the Woods Capital Campaign. Donors may also use naming gifts to honor a family member, friend or loved one. We invite you to consider these opportunities and are happy to assist in identifying one that matches your preferences.

# Creating Home

A capital campaign to transform lives

This year, in 2020, Hillcrest is launching the second phase of a life-changing transformation of Woods Health Services, the health care center at Hillcrest.

The facility was built fifty years ago, and though every effort has been made to provide a clean and attractive environment for those who are recovering from medical issues or are facing their last days, the facility is not able to provide a current best practices environment without some structural and cosmetic changes.

This new, more home-like environment will support and encourage a best practices culture-change in how residents receive care. In the past, care was done to and for the patient, leaving the patient often feeling lonely, bored and helpless. The new environment will implement a resident-centered care philosophy that encourages residents and staff to work together in defining the resident's care-plan.

Proven results in providing this type of cooperative care are increased spontaneity, meaningful interactions, and healthier, more satisfying outcomes for the residents, as well as the staff.

## THE HEALING GARDEN

A new central gathering place for residents to enjoy visits from family and friends.

A new entrance that opens into common areas, protecting the privacy of residents.

A new nursing station facilitating responsive care.

Beautiful outdoor gardens filled with flowers trees and alcoves.

And areas to enjoy creative and social activities all in a home-like environment

At the heart of it all is hope, dignity and love.

The transformation of Woods Health Services includes multiple elements, both large and small—all essential to serving and enriching the lives of residents.

### **New Main Entrance**

The new main entrance will have a direct view to the reception area. Visitors will no longer have to walk through the hallway past patient rooms to get to the center of Woods Health Services.

### **Refurbished Resident Rooms **COMPLETED****

Each resident room will be refurbished with new and updated decor, including window coverings, bedspreads, floor coverings, and furnishings and flat-screen TVs.

### **The Gathering Place**

Adjacent to the Resident Family Room, the Gathering Place will allow residents to participate in Resident Life & Wellness opportunities and provide a space for visiting with friends and family.

### **Access to Sunlight and Outdoor Garden Area**

From the new Gathering Place, residents and visitors will have immediate access to an outside patio and gardens to enjoy sunlight, nature, and the benefits of being outdoors.

THE GATHERING PLACE

### Remodeled Nursing Station/Common Areas

A new nursing station will be receded into an existing room to subdue the clinical environment, while still providing responsive care to residents and family.
